Prof. Misir C. Mardanov
Director of Institute of
Mathematics and Mechanics
of NAS of Azerbaijan

Dear Professor Mardanov,

It was my first visit of Azerbaijan and I was enjoyed to find the people cheerful, obliging and proud of their country. I was honored by invitation to be a member of International Committee of this excellent Conference MADEA 7. I wish to thank you and to thank all Organizing Committee for the perfect preparation of the conferences. I know all difficulties related to this work: I organized four international conferences, two in Poland and two in France. The problem of sponsoring, of choice of speakers of high scientific level and so on and so on. Your team realized perfectly all these goals. It was very important for many young azerbaijanese mathematitians having not opportunity to meat the foreign specialists to have the possibility to discuss with them. All participants of the conference were very satisfied and the effort of the Local Organizing Committee was highly appreciated.

Thank you one more, I am very grateful to you and to the organizing team.

Jacek GILEWICZ
Profesor emeritus
of Tulon University, France
