Aliev S.A., Yeleyko Y.I., Zhernovyi Y.V. <i>Stationary characteristics of the single-server closed Queueing systems without interruptions and with the opportunity of interruption of service</i>	3
Aliyev Z.S. <i>Some spectral properties of a fourth order differential operator with spectral parameter in boundary condition</i>	11
Aslanov H.I., Mammadov M.M. <i>Completeness of elementary solutions of differential-operator equations</i>	25
Balayev M.K. <i>On non-local solvability of non-linear differential operator equations of parabolic type in Banach space</i>	33
Bilalov B.T., Guseynov Z.G. <i>Bases from exponents in Lebesgue spaces of functions with variable summability exponent</i>	43
Gasymov A.A. <i>On solvability of a class of fourth order complicated characteristic operator-differential equations</i>	49
Huseynli A.A. <i>Some properties of defect bases and bases of subspaces</i>	55
Huseynov H.M., Latifova A.R. <i>The main equation for the system of Dirac equations with discontinuity conditions interior to interval</i>	63
Ibadov E.Y. <i>On distribution of eigenvalues of a second order discontinuous differential operator</i>	77
Mamedov A.M. <i>On solvability of a boundary value problem for a class of third order operator-differential equations with disconnected coefficients</i>	85
Salimova G.A. <i>An inverse boundary value problem for a fourth order evolutionary equation arising in hydroacoustics of stratified liquid</i>	95

MECHANICS

- Akhundov M.B., Piriyeu J.A., Sadayev A.Sh.
On a model of delayed fracture of internal pressure annular domain 105
- Isayev A.H.
Contact problem for elastic piecewise-homogeneous infinite plate with infinite stringer 119
- Mammadov Kh.B., Mustafaeva Y.Y.
Methods of ibm computation of curvilinear columns on large displacements ... 125
- Taheri E.A., Mamedova G.A.
Investigation of free vibrations acoustic medium with cylindrical inclusion containing elastically suspended mass, by the inverse method 135

APPLIED PROBLEMS OF MATHEMATICS AND MECHANICS

- Aliev Q.Q.
Distribution of electromagnetic waves to chemically changing environments ..141
- Jabbarova K.Sh.
Boundary control problem for string vibrations equation. II 155
- Kengerli T.S.
Model of joint filtration of two-component liquid 165
- Kuliyev H.F., Tagiyev H.T.
An optimal control problem with nonlocal conditions for wave equation 169
- Panakhov G.M., Omrani A.N.
Quasi-periodic in-situ foaming in processes of selective insulation of high-permeable channels of the porous medium 183
- Sharifov Ya.A.
Necessary optimality conditions of first and second order for systems with boundary conditions 189
- Yashar Shakir oglu Salimov** 199
