----------------------------------	---

MATHEMATICS

Ahmedova A.R. <i>Construction of transformation operator with condition at infinity for stark's equation</i>	5
---	---

Aliev A.B., Mammadzada K.S., Hasani Lichaei Bijan <i>Existence of a global weak solution of the Cauchy problem for systems of semilinear hyperbolic equations</i>	13
--	----

Aliev S.A., Abdurakhmanov V.A. <i>Limit theorems for the first passage time for the level by nonlinear function of Markov chain</i>	25
--	----

Arazm M.-R.I. , Mamedova V.A. <i>On removable sets of solutions of elliptic equations.....</i>	31
---	----

Balayev M.K., Yakubov S.Ya. <i>Coercive solvability of quadratic operator and differential pencils by spectral parameter</i>	41
---	----

Bilalov B.T., Sadigova S.R. <i>On perturbations of Banach spaces bases</i>	53
---	----

Guliyev E.V., Aliyev S.S. <i>A priori Morrey estimates for Poisson equation</i>	61
--	----

Hashimova T.E. <i>On finiteness of the moments of the first passage time of one-sided nonlinear boundary by a random walk</i>	69
--	----

Heydarov A.H. <i>Spectral analysis of one-dimensional biharmonic operator with δ'' potential ...</i>	73
---	----

Huseynov R.V., Amanov R.A. <i>On strong solvability of Dirichlet problem for non-uniformly degenerate elliptic equations of second order.....</i>	79
--	----

Ilyasov N.A. <i>Estimations of the smoothness modules of derivatives of convolution of two periodic functions by means of their best approximations in $L_p(\mathbb{T})$.....</i>	89
---	----

Isayeva S.E. <i>The initial-boundary value problem for one semilinear hyperbolic equation with memory operator</i>	105
Ismaylova A.I. <i>Estimations for root fucntions of Dirac operator</i>	113
Djalilov K.A. <i>On the solution of a fractional derivative boundary value problem.....</i>	129
Mamedova Z.V. <i>On approximate properties of systems in Banach spaces.....</i>	133
Mammadov T.Sh. <i>Accumulation processes connected with waiting time of customers in multiterminal queuing systems.....</i>	139
Mammadov Ya.Y. <i>On the boundedness of the maximal operator in Morrey spaces associated with the Dunkl operator on the real line</i>	147
Panat O.T., Buhrii O.M. <i>Some properties of the solutions to the hyperbolic equations with variable exponents of nonlinearity</i>	155
Rahimov F.H., Azizov F.Dj. <i>On the first passage time of one-sided nonlinear boundary by the trajectory of Markov chain</i>	161
Rzayev R.M., Aliyeva L.R. <i>Mean oscillation, Φ-oscillation and harmonic oscillation</i>	167
Sadykhova N.R. <i>On behavior of solutions of higner order degenerate elliptic equations</i>	177
Shahbazov A.I., Seyidov D.A. <i>Closed range and compact weighted composition operators on uniform algebras</i>	185

MECHANICS

Kazimova R.A., Baghirov E.T. <i>On one formula of corrosive strength of metals under non-stationary change of temperature</i>	193
--	-----

Mutallimov K.Sh. <i>Impact by a rough blunt wedge on an elastic filament with regard to its failure under subsonic condition</i>	197
Rustamov B.E. <i>Local failure of burning body involving volume forces.....</i>	203
Zolgharnein E. <i>A problem on crack nucleation under inner compression of cylindrical bodies.....</i>	211

APPLIED PROBLEMS OF MATHEMATICS AND MECHANICS

Mustafayeva T.M. <i>Minimal energy controllability problem for string's vibration equation</i>	221
Najafov M.A. <i>A flutter of a plate arranged on wedge cheek</i>	227
Salmanova G.M. <i>Non-axisymmetric oscillations of ideal liquid in elastic moment shell</i>	233
Sharifov Ya.A., Djabrailov Sh.I. <i>Singular controls in the sense of Pontryagin's maximum principle for controlled systems with three-point boundary conditions.....</i>	241
