Rahimov F.H., Azizov F.J., Khalilov V.S. <i>Integral limit theorem for the first passage time for the level of random walk described by a nonlinear function of the sequence autoregression $AR(1)$</i>	99

- Sultanova E.B.
To theory of fourth order operator bundles 105

MECHANICS

- Akhundova P.E.
On a method for wear reduction of a friction pair hub 111

- Akperova S.B.
Asymptotic behavior of the solution of a torsion problem of a transversally-isotropic cylindrical shell with variable shear modulus 117

- Gadjiev V.D., Rzayev N.S.
Lateral oscillations of a beam made of multi-modulus material lying on inhomogeneous visco-elastic foundation 125
Mamedova M.A., Mamedova H.A.
Scattered failure of a spherical vessel under cyclic internal pressure 131

- Mustafayev A.B.
The action of temperature field on crack retardation in strip (beam) bending 139

APPLIED PROBLEMS OF MATHEMATICS AND MECHANICS

- Atakishiyev N.M., Jafarov E.I., Jafarova A.M., Jeugt J.V.
The Husimi distribution function and superposition of q -harmonic oscillator stationary 147

- Tagiyev R.K., Kasumov R.A.
A problem of optimal control of coefficients of a parabolic equation with optimization along the boundary of the domain 157
