Bayramoglu M., Aslanova N.M. <i>On asymptotics of eigenvalues and trace formula for second order differential operator equation</i>	3
Dzhabarzadeh R.M. <i>Structure of eigen and associated vectors of not selfadjoint multiparameter system in the Hilbert spaces</i>	11
Gasymov T.B., Huseynov A.A. <i>Asymptotics of eigenvalues and eigenvalues of a discontinuous boundary value problem</i>	21
Hashemi R. <i>The commuting graph on the Fibonacci orbits of groups</i>	33
Ibrahimov E.J., Jafarova S.A. <i>On approximation order of functions by Gegenbauer singular integrals</i>	39
Ismailov M.I., Jabrayilova A.N. <i>b-bases in Banach spaces</i>	53
Jamshidipour A.H., Huseynov H.M. <i>Basic equations of inverse scattering problem for Sturm-Liouville operator with spectral parameter in discontinuity condition</i>	59
Kurbanov V.M., Ismaylova A.I. <i>Representations for root vector-functions of Dirac one-dimensional operator ..</i>	65
Mamedova A.F. <i>Transformation operator for a class of potentials of Sturm-Liouville equation</i>	73
Pashayev N.J. <i>On one inverse problem for a system of reaction-diffusion type</i>	81
Rahimov F.H., Azizov F.J., Khalilov V.S. <i>On limit behavior of conditional probability of crossing of level by the Markov chain trajectory</i>	87

- Shariffar A., Aliev O.S., Mamedova V.A.
*Removable sets of solutions of second boundary-value problem
 for degenerated parabolic equations* 93

MECHANICS

- Bavafa Y.
*Investigation of greepage in pine ended multi-layer limber
 rod whit respect to instant elastic deformation* 99

- Yusifov M.O.
*Oscillations of longitudinally stiffened open cylindrical shells
 contacting with viscoelastic medium under axial compression* 107

APPLIED PROBLEMS OF MATHEMATICS AND MECHANICS

- Hasratova M.H.
*Simulation of the Semi-Markov processes, describing behavior of
 stocks management* 113

Nagiev H.A.

- Dynamic systems with multiplicity of stationary state and
 strategy of highly steady control* 117
