MECHANICS

Akhundova P.E.
*Calculation of balanced roughness of interfacial bonds
 in the hub of friction pair* 121

Mehdiyev M.A., Aliyev S.A.
*Nonlinear parametric vibrations of a laterally strengthened
 cylindrical shell contacting with viscoelastic medium* 125

Yusubova S.M.
Torsional vibrations of a transversally isotropic spherical shell 131

Zeynalova T.Yu.
*A problem on stability of plates made of curved structure
 composite material* 139

APPLIED PROBLEMS OF MATHEMATICS AND MECHANICS

Abdulzade S.I.
Reducing a forecast model to the stochastic programming problem 145

Guliyev H.F., Ismailova G.G.
*Inverse boundary value problem for string vibrations equation
 and its reduction to optimal control problem* 149

Imranov F.B., Jafarova A.M.
Quantum dissipative harmonic oscillator 157
